Summary

As a skilled frontend engineer with a focus on front-end and mobile application development, I bring a wealth of experience across multiple domains, including finance, e-commerce, and aviation security. My expertise lies in designing and implementing robust, scalable solutions that meet the specific needs of users and organizations. Throughout my career, I've been committed to continuous learning and staying at the forefront of industry trends. Whether it's implementing the latest technologies or applying innovative problem-solving techniques, I'm passionate about delivering high-quality, impactful solutions that drive success.

Experience

Danske Bank Copenhagen, Denmark
Senior Software Engineer 01/2024 - Present

Responsible for feature design and implementation in mobile applications using React Native and TypeScript. Developed core modules for company-wide use, made critical decisions on feature implementation, and extensively applied union types and functional programming techniques to ensure robust and maintainable code.

- React Native with Typescript
- Feature Design, Platform Engineering
- Core Module Development / Modular Development
- Functional Programming

Bizzkit Odense, Denmark
Front End Developer 03/2022 - 01/2024

Led the development and enhancement of front-end solutions within the PIM/DAM domain, ensuring seamless integration of systems and efficient data flow. This role has significantly sharpened my problem-solving abilities and deepened my expertise in modern front-end technologies.

- React.js
- Aurelia (UI framework)
- TypeScript

Mobven Istanbul, Turkey
Front End Developer 10/2020 - 02/2022

Experienced in developing and delivering high-quality front-end solutions tailored to customer needs across various domains. Proficient in utilizing a range of front-end tools, including Vue, React, Angular, and common front-end technologies based on customer requirements.

- Vue
- React
- Angular

Freelance Istanbul, Turkey
Front End Developer 01/2018 - 10/2020

I excelled at understanding client requirements, translating them into technical specifications, and delivering tailored solutions. My strong problem-solving skills enabled me to successfully resolve complex technical issues.

- React / React-Native
- Angular
- CI/CD for Frontend deploy
- API Design with backend

Experience

Gozen Aviation Security

Istanbul, Turkey

Research, Training Expert

12/2011 - 10/2020

Conducted comprehensive training programs and research to enhance aviation security measures, ensuring compliance with industry regulations and best practices. Implemented cutting-edge technologies, provided technical expertise, and continuously evaluated security protocols to maintain high standards and address potential risks.

- Training Programs (Employee upskilling)
- Research (Emerging trends in aviation security)
- Security Technologies (Implementation and maintenance)
- Compliance (Regulatory adherence)
- Risk Management (Proactive security measures)
